Book Synopsis

An historian of fascism offers a guide for surviving and resisting America's turn towards authoritarianism.

Against all predictions, one of the most-disliked presidential candidates in history had swept the electoral college, elevating a man with open contempt for democratic norms and institutions to the height of power.

In his books *Bloodlands* and *Black Earth*, he has carefully dissected the events and values that enabled the rise of Hitler and Stalin and the execution of their catastrophic policies. Twenty Lessons is a call to arms and a guide to resistance, with invaluable ideas for how we can preserve our freedoms in the uncertain years to come.
